danuButton® Gastrostomy Button

The danuButton® is a low-profile feeding tube made of high-quality medical silicone.

- Small, low in profile and discreet for more mobility and quality of life
- Large selection of sizes and lengths for individual and perfect fit
- Soft, flexible silicone for high patient comfort
- Better patient safety due to high-quality materials, free of harmful substances
- Apple-shaped inner retention balloon with high balloon stability for long usage, secure fixation and to avoid leakage

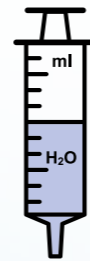

The danuButton® is supplied in three different sets:

The danuButton® Premium Set and the danuButton® Compact Set include a comprehensive range of ENFit® accessories for convenient and easy replacement of the gastrostomy button. The danuButton® Compact XS is a set with reduced accessories.

| Recommended balloon filling volume | |
|------------------------------------|----------------------|
| Shaft size in Fr | Balloon volume in ml |
| 12 | 3.0 |
| 14 | 4.0 |
| 16 | 5.0 |
| 18 | 5.0 |
| 20 | 8.0 |
| 24 | 8.0 |

The danumed® Extension Set

The Extension Set is the connecting piece between the danuButton® and usually an enteral syringe for the administration of enteral nutrition, liquids or medication.

The Extension Sets included in the danuButton® Premium and Compact Sets are made of kink-resistant, biocompatible polyurethane. They are equipped with ENFit® connectors according to DIN EN ISO 80369-3 and danumed's innovative rotating ring, the ENSwivel®.

Set content of the danuButton® Premium Set:

- 1 danuButton® Gastrostomy Button
- 2 danumed® Extension Set for Gastrostomy Button, 30 cm, Bolus-ENFit®, ENSwivel®, straight button connector
- 3 danumed® Extension Set for Gastrostomy Button, 30 cm, Y-ENFit®, ENSwivel®, angled button connector
- 4 danumed® Introducer
- 5 danumed® Balloon Syringe 10 ml
- 6 danumed® Enteral Syringe, 60 ml, ENFit®
- 7 optiLube Lubricant
- 8 4 Gauze pads
